DM3610 Dimensioner

⊕DATALOGIC

The DM3610 is a compact, overhead dimensioning unit that automatically measures the length, width, and height of packages as they are transported on a conveyor. The self-contained dimensioner is designed for simple installation and enables a range of applications across multiple markets including parcel, warehousing & distribution. The DM3610 is certified in Legal-For-Trade applications and its highly accurate measurements make it the perfect solution for spatial management applications. In the 2-head configuration, the DM3610 can provide dimensions for irregular as well as cuboidal objects.

Used in conjunction with barcode scanners and scales, the DM3610 improves operations for systems such as AS/RS, trailer cubing, manifesting and revenue recovery.

HIGHLIGHTS

Accurate dimensioning at high speed:
- NTEP certified accuracy of ± 0.2" for length and width and ± 0.1" for height at belt speeds up to 620 fpm
- OIML certified accuracy ± 5 mm for length, width and height at belt speeds up to 3.1 m/s

"Plug-and-Play" functionality:
- Simple parameter upload simplifies field replacement

Reliability:
- IP65 rating
- –10°-50° C (14°-122° F) operating temperature
- Industrial M12 connectors
