C-Series C5 All-in-One Touchcomputers

The Elo Touch Solutions C-Series C5 models provide a highly configurable, ruggedized touchcomputer in two screen sizes: 19-inch and 22-inch with Elo's IntelliTouch Zero-Bezel/iTouch Plus multi-touch surface acoustic wave touch technology. The C-Series C5 models have been developed to meet the demanding needs of a wide variety of point-of-sale (POS), point-of-information (POI), and point-of-service venues, including retail and hospitality display units, customer loyalty systems, internet access sites and mobile kiosks.

The C-Series all-in-one touchcomputer platform offers big, bright LED HD displays in a wide-aspect ratio. This makes the C-Series an excellent choice for retail point-of-information, counter top product demonstration or customer information systems. In addition, hospitality host and seating systems that depend on an accurate display of restaurant layouts can utilize the wide screen of the C-Series and the additional screen space available to display their seating/ floorspace. The C-Series is RoHS compliant, and

includes an enclosure design that is resistant to dripping water with an IPX1 rating, protecting the unit from liquid drops and spills. The C-Series is an excellent fit for a wide variety of retail and hospitality settings.

The C-Series touchcomputers bring flexibility with your choice of connectivity, serviceability with easy access to key components, and a choice in processing power. In addition, an array of field-installable peripherals, spill-resistant sealing, and a full range of standard of input/output port connections make the C-Series both versatile and powerful.

The Elo C-Series C5 models feature the 3rd Generation Intel Core i5, 3.0GHz i5-3550S processor with HD2500 graphics.

Features:

- Small footprint, retail-hardened, flexible touchcomputer
- Full range of standard connectivity ports for retail POS/POI and hospitality applications
- Customer-installable peripheral, memory and storage options
- Elo's IntelliTouch Zero-Bezel/iTouch Plus multi-touch surface acoustic wave touch technology

Benefits:

- Outstanding configurability and customization options to meet all your connectivity needs
- Zero-bezel models provide a seamless, edge-to-edge design for a sleek appearance that is easy to clean and maintain
- Stability to withstand the rigors of use in a public environment
