

**DIRECT-TO-CARD PRINTER**

- **High Quality Output** – Simple, reliable and affordable photo ID card personalization, delivering a new level of durable, great-looking credentials
- **Simply Plug-and-Play** – The intuitive user-focused design allows for easy setup, loading and operation for increased efficiency
- **Convenient and Affordable** – Create ID cards right out of the box with its plug-and-play Swift ID™ embedded badging application

**Take advantage of the built-in and optional features that suit your business:**

- Dual-sided printing option provides more space for company or cardholder information and security features.
- Network your printer in seconds with optional Ethernet connectivity to access remotely and in networked card printing environments.
- The DTC1000 enables migration to contact and contactless smart cards (including HID iCLASS® technology) or simple magstripe and prox cards with optional technology card encoders.
- Erase and rewrite eco-friendly feature makes the DTC1000 ideal for temporary ID cards, such as visitor badges.
- Prints on a variety of card thicknesses for simple loyalty cards to more sophisticated access control badges right out of the box, as thin as 9 mil up to 40 mil.

Designed for small to medium businesses, the DTC1000 provides maximum efficiency in a sleek user-friendly design. This printer is virtually maintenance-free and prints full-color plastic ID and technology cards on a budget.

**The DTC1000 adds a level of convenience to easily print what you need, including:**

- Easy, all-in-one print ribbon and card cleaning cartridge simplifies the ribbon loading process.
- Built-in Swift ID™ badging application software enables you to create ID badges in seconds without having to install any additional software.
- Edge-to-edge printing in full-color or simple black and white.

- Economical half-panel ribbons to personalize pre-printed cards with a photo and bar code.
- Its intuitive design providing instant system status through color changing buttons.
- Industry's first inline card printing and technology card encoding with one connection using USB or optional Ethernet connectivity.

The FARGO® DTC1000 is built with Genuine HID™ technology and is fully interoperable with other products in the HID ecosystem, enabling organizations to leverage their existing HID technology investments.

\* Indicates the ribbon type and the number of ribbon panels printed where Y=Yellow, M=Magenta, C=Cyan, K=Resin Black, O=Overlay, B=Dye Sublimation Black.

\*\* Print speed indicates an approximate print speed and is measured from the time a card drops into the output hopper to the time the next card drops into the output hopper. Print speeds do not include encoding time or the time needed for the PC to process the image. Process time is dependent on the size of the file, the CPU, amount of RAM and the amount of available resources at the time of the print.

\*\*\*Linux versions: Ubuntu 8.04/9.04, Red Hat 5, Fedora 7/8/9/10/11, Open Suse 10.3, Debian 5.03/5.04, Mandriva one 2009
