

HP EliteBook Revolve

Bends over backwards to get more done.

This ultra-thin, full-performance Windows 8¹ notebook transforms into a tablet, so you can choose what works best in any situation. One device gives you the power to tackle the workday, your way.

HP recommends Windows 8.

Work your way.

Get a sleek, thin, and light notebook with a screen that revolves to share your work. Turn and fold the touch-enabled display and go ultra-mobile as a tablet. The HP EliteBook Revolve moves the way you do, automatically adjusting the screen orientation, brightness, and more based on the way you're working.

The HP EliteBook Revolve is optimized for Windows 8, giving you the intuitive touch experience you expect. Plus it features a full-sized, backlit keyboard and with an optional pen,¹⁰ so you have the tools to get the job done.

With enterprise-class docking capabilities, you can easily reconnect to your external display, keyboard, mouse, printer, and other key accessories¹⁰ when parked at the office.

Thin, light, and powerful.

With an 11.6-inch diagonal HD⁷ display packed into a 3.08 lbs.²⁰ starting weight and 22.4 mm design²⁰ at its thinnest point, you enjoy mobile freedom without sacrificing performance. Carry less. Do more.

Driven by the latest Intel® processors and solid-state drive options up to 256 GB. Be ready in as fast as 5 milliseconds with Intel® Rapid Start Technology.¹⁸

All the connections you need.

With the ports you'd expect on a high-performance notebook, the HP EliteBook Revolve never lets you down. Connect to displays,¹⁰ projectors,¹⁰ and accessories¹⁰ through USB 3.0 and DisplayPort. Plus get simple, wireless transactions, data sharing, log in, and more with NFC.¹⁵

Built for business. Built to last.

We chose premium materials like scratch-resistant Corning Gorilla Glass 2 and an all-magnesium chassis for a reason—so you can focus on work with a notebook that goes the distance.

Enterprise-class experience.

The HP EliteBook Revolve was designed so that IT can easily manage a fleet from a single interface, no matter where the devices are located. For example, with the optional LANDesk Management Suite^{10,28} IT can remotely update drivers or activate SIM cards for a whole fleet of devices at once, or help locate your missing PC and protect your data with Find My PC.

We've included technologies to help keep your HP EliteBook Revolve protected, from the ground up. Protect your PC's foundation from viruses and malware with HP BIOS Protection. Then the HP Client Security software suite helps you encrypt your hard drive, permanently delete unwanted or discarded data, restrict unauthorized access, and more.²⁹ Plus, the Common Criteria Certified TPM chip manages security keys that help protect your data, email, and user credentials.

Keep sensitive data and devices in-house, and save both time and money. Maintenance is easy—no special tools required.

Get 50GB free storage and sync.

Box provides simple, secure sharing from anywhere with Internet access for your personal and business files.^{19,30}

Concierge-level support for elite professionals.

Great technical support isn't just about solving problems. It's about getting you back to business fast and eliminating stress. HP Elite Premium Support provides near-instant phone access to an elite-accredited, U.S.-based specialist at any time, any day of the year – and at no extra cost. Simply call us at 1.866.625.1175.

The HP EliteBook Revolve. Make the workday revolve around you.

SPECIFICATIONS

Warranty	Limited 90 day warranty (depending on country); 1 and 3 year limited warranty options ¹⁰ available. Optional HP Care Pack Services ^{10,11} are extended service contracts which go beyond your standard warranties. For more details visit: hp.com/go/lookuptool .	

HP EliteBook Revolve

HP recommends Windows 8.

1. Not all features are available in all editions of Windows 8. Systems may require upgraded and/or separately purchased hardware, drivers and/or software to take full advantage of Windows 8 functionality. See microsoft.com/
2. Systems may require upgraded and/or separately purchased hardware to take full advantage of Windows 7 functionality. See microsoft.com/windows/windows-7/ for details.
3. Multi-Core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. 64-bit computing on Intel® architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers, and applications enabled for Intel® 64 architecture. Processors will not operate (including 32-bit operation) without an Intel® 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. Intel's numbering is not a measurement of higher performance.
4. Some functionality of this technology, such as Intel® Active management technology and Intel Virtualization technology, requires additional 3rd party software in order to run. Availability of future "virtual appliances" applications for Intel vPro technology is dependent on 3rd party software providers. Microsoft Windows required.
5. Maximum memory capacities assume Windows 64-bit operating systems or Linux. With Windows 32-bit operating systems, memory above 3 GB may not all be available due to system resource requirements.
6. For Solid State Drives (SSD), GB = 1 billion bytes. Actual formatted capacity is less. Up to 30 GB for Windows 8 is reserved for system recovery software.
7. HD content required to view HD images.
8. Wireless access point and Internet service required. Availability of public wireless access points limited.
9. Requires Microsoft Windows.
10. Sold separately or as an optional feature. Requires Windows 7 or Windows 8.
11. Service levels and response times for HP Care Packs may vary depending on your geographic location. Service starts on date of hardware purchase. Restrictions and limitations apply. For details, visit hp.com/go/lookuptool
12. Select HP devices include a 4 year license of Absolute Data Protect to locate your device, lock and prevent unauthorized access and remotely delete personal data. See absolute.com/landing/2012/computrace-hp for complete details. Absolute Data Protect agent is shipped turned off, and must be activated by customers. Service may be limited, check with Absolute for availability outside the U.S. The optional subscription service of Absolute Recovery Guarantee is a limited warranty. Certain conditions apply. For full details visit: absolute.com/company/legal/agreements/computrace-agreement. If Data Delete is utilized, the Recovery Guarantee payment is null and void. In order to use the Data Delete service, customers must first sign a Pre-Authorization Agreement and either create a PIN or purchase one or more RSA SecureID tokens from Absolute Software.
13. In order to deploy and receive updated policies, the client needs to be connected to the network server and requires separately purchased DigitalPersona Pro software. System access may not prevent users from logging into the system on the first attempt if policy updates haven't yet been received and applied.
14. Internet access required.
15. NFC software is not included and is sold separately. Internet access required.
16. Wireless use requires separately purchased service contract. Check with your local vendor for coverage area and availability in your area. Connection and speeds will vary due to location, environment, network conditions, and other factors.
17. Intel® Turbo Boost technology requires a PC with a processor with Intel Turbo Boost capability. Intel Turbo Boost performance varies depending on hardware, software and overall system configuration. See intel.com/technology/turboboost for more information.
18. Based on PCMark testing. Depending on system configuration, your results may vary.
19. The Box Windows 8 tile comes pre-installed on the Start screen of EliteBook units shipping in the following countries: U.S., Canada, Mexico, Brazil, Colombia, Chile, Antigua, Barbuda, Barbados, Belize, Guam, Trinidad, Tobago, Venezuela, and Peru
20. Weight will vary by configuration.
21. This system is preinstalled with Windows 7 Pro software and also comes with a license and media for Windows 8 Pro software. You may only use one version of the Windows software at a time. Switching between versions will require you to uninstall one version and install the other version. You must back up all data (files, photos, etc.) before uninstalling and installing operating systems to avoid loss of your data.
22. Computrace agent is shipped turned off, and must be activated by customers when they purchase a subscription. Subscriptions can be purchased for terms ranging for multiple years. Service is limited, check with Absolute for availability outside the U.S.
23. Requires initial user setup.
24. GPS access requires an unobstructed path to multiple satellites. Performance may be affected if/when used inside of buildings, bridges or heavily congested metropolitan areas. Requires separately purchased GPS navigation software available from multiple GPS applications.
25. Requires an Internet connection to HP Web-enabled printer and HP ePrint account registration (for a list of eligible printers, supported documents and image types and other HP ePrint details, see hp.com/go/eprintcenter). Requires optional broadband module. Broadband use requires separately purchased service contract. Check with service provider for coverage and availability in your area. Separately purchased data plans or usage fees may apply. Print times and connection speeds may vary.
26. For the methods outlined in the National Institute of Standards and Technology Special Publication 800-88.
27. Opt-in and Internet connection required for updates.
28. Requires Windows 7 or Windows 8. Location based functionality planned to be available in May 2013 and requires active LANDesk maintenance service or purchase of updated LANDesk license with location based settings when available.
29. For the use cases outlined in the Department of Defense 5220.22-M Supplement. Face Recognition for HP Client Security requires Microsoft Windows.
30. Not available in all countries. Click on the Box icon on your HP EliteBook Revolve desktop or the Box tile on the Start screen and register for a new account to receive the offer. Offer valid through June 30, 2014.

About us

- Legacy Technology Services is a leading nationwide provider of mobile computing, barcode, printers and point of sale equipment and services.
- For over a decade, thousands of clients across North America have trusted us to provide equipment from leading manufacturers backed by the services to support them.

Latest Hardware from top manufacturers

- Legacy handles virtually every major manufacturer of mobile computing, barcoding and point of sale equipment.

Expert Repair and Maintenance services

- Legacy is one of the best repair facilities in North America

Discontinued product sourcing

- They don't make it anymore? Our inventory also includes manufacturer close-outs and discontinued equipment to support our clients legacy infrastructure.

Trade-in and Disposal services

- That old equipment laying around your facility may still have some value. Legacy routinely purchases equipment from our clients around the globe.
 - Data destruction
 - Hardware disposal
 - Auditing services

Dedicated client account team

- Dedicated, highly trained account managers are here to answer all your questions and provide top notch service.

Equipment rental services

- Sometimes renting is a better solution, Legacy's huge rental inventory provides the equipment you need for temporary needs and projects.
