HP LD4201

42-inch LCD Digital Signage Display

Enhance your digital signage experience!

Introducing a digital signage display that enables businesses to quickly and affordably deploy an attractive and engaging signage solution.

Slim Design, Smart Technology

Bring new life to your business with the HP LD4201, 42-inch diagonal digital signage display – the perfect solution for business owners who manage their own in-store advertising. With the LD4201's contemporary design and smart technology, campaigns can be more attractive and dynamic with the following features.

First, the LD4201 has thin **bezels** that are **less than 17mms wide**. This not only helps create an elegant, contemporary atmosphere in an environment, but it also enables a more natural image when several displays are tiled together on a video wall installation. Next, **high brightness and contrast**[1] work together to help provide clear on-screen views in high ambient light areas, creating excellent text readability and life-like high definition[2] images.

Finally, the LD4201 comes with built in **HP Media Sign Player**. This smart technology provides a simple and straightforward media player right from the display, enabling a user to quickly and easily manage content. Just plug in a flash drive containing pictures, movies and/or music[3] to the USB port on the back of the display and immediately take advantage of dynamic advertising. With this embedded player, there is NO PC required, NO software to install, NO new programs to learn, and NO additional costs!

Enhanced Digital Connectivity

In addition to a design and technology, the HP LD4201 also provides a wide range of digital inputs for greater flexibility and a nearly endless array of connectivity options. This includes **DisplayPort IN and OUT**, which provide compatibility with HP's Digital Signage Players. This can also simplify cabling for hassle-free connectivity of Full HD[2] daisy-chained video walls[4].

End to End Solutions

HP offers Digital Signage Displays, Signage Players, Kiosk Solutions, optional hardware, and software to enable businesses to quickly and affordably deploy smart digital signage solutions. With HP's 2 year limited warranty[5], commercial-grade electronics, and 24/7 worldwide support with advance replacement, business owners can spend more time focusing on the big picture.

HP LD4201 42 inch LCD Digital Signage Display

Part number	XH219AA
Panel type	**106,7 cm** (42-inch) diagonal Wide-Aspect Active Matrix TFT (thin film transistor)
Viewable image area	**106,7 cm** (42-inch) widescreen; diagonally measured
Viewing angle	Up to 178° horizontal/178° vertical (10:1 minimum contrast ratio)
Brightness[1]	500 nits (cd/m^2)
Contrast ratio[1]	1200:1 (Typical); 3000:1 (Dynamic)
Response rate[1]	9 ms (GtoG)
Frequency	Horizontal: 30 to 83 kHz; Vertical: 56 ~ 76 Hz (Analog), 56 ~ 61 Hz (Digital)
Native resolution	1920 x 1080
Resolutions supported	1920 x 1080, 1680 x 1050, 1600 x 900, 1440 x 900,1280 x 1024, 1280 x 720, 1024 x 768, 800 x 600, 640 x 480
Input signal	VGA (RGB), HDMI/DVI (can connect to DVI with optional adapter sold separately), DisplayPort (DP)
