

**hp LD4720tm LCD Interactive Display**  
Touch the difference

Let touch technology open your business up to more attention. Perfect for high traffic public areas where your audience can interact with your message.

**Add touch**

A better digital signage display for professional applications, the HP LD4720tm LCD Interactive Digital Signage Display includes a factory-integrated "multi-touch" touch screen with an innovative "no-ghosting" technology that provides more accurate touch recognition. The integrated IR technology allows for a more narrow bezel so your multi-monitor display presents a more natural image when matrixed together. You'll see and touch the difference for a more dynamic digital signage display.

**A smarter multi-touch display**

HP's multi-touch displays are plug-n-play and Windows HID compliant which makes them simple to install delivering quick and easy access to information, entertainment, and other applications. For applications that rely on accuracy such as multi-touch photo manipulation, our advanced IR technology helps eliminate unpredictable results.

Create larger than life imagery with integrated scaler technology which facilitates daisy-chaining of multiple displays without requiring additional media players. Simple to use HP Network Sign Manager is included for remote or centralized control of the displays. This powerful software helps you manage your displays and the message you're projecting saving you time and money. The embedded HP Media Sign Player provides a basic media player designed into the display; just plug your message into the display

using a USB drive. The player supports any combination of image, video, and audio files in your play list.

**Flexible fit**

The HP LD4720tm fits in your environment with ease. A multitude of standard connection ports and input options offer a nearly endless array of options for simplifying cabling requirements and display management. Remote command and control is accomplished either by a simple direct connect serial cable or use a LAN connection to the DSD to enable control of multiple displays from any player or computer on the network.<sup>1</sup>

**Eye catching design**

Let the eye catching design and advanced technology showcase your message or images for greater attention. The rounded lines and unique narrow bezel encase a full 1080p native widescreen display with high brightness and contrast that brings life to your message.<sup>2</sup> Wide viewing angles enable clear views from any angle and landscape and portrait modes offer flexibility in your environment.

**Built to last**

HP Digital Signage Displays are engineered for demanding usage for enhanced performance and reliability. HP DSDs are rated to operate 24/7 in traditional retail and commercial environments. The fully integrated touch display is Built with robust commercial-grade electronics and liquid crystal panels for added reliability.
