

HP Pro 3400 Microtower Business PC

The Right Fit

Take full advantage of your business resources with stylish efficiency at a price that won't break the bank.

HP recommends Windows® 7 Professional.

The HP Pro 3400 Microtower Business PC is designed to give you the right amount of power to fit your needs, all with a great new look and a heritage of quality and reliability. The space-efficient size and refined profile will fit seamlessly almost anywhere you choose to put it.

The perfect fit.

With its space efficient industrial design this PC is smaller than the average desktop tower and fits neatly on a desk, counter, or shelf. Designed to fit typical business workspaces, the Microtower includes conveniently placed front USB 2.0 ports and audio ports. Standard video, network and additional USB ports are available on the rear.

Your choice for your business.

This PC can be configured to support high speed memory and super fast processors for a customized level of performance with your choice of 2nd generation Intel® Core™ i3, i5, and i7 processors.¹ And, You won't have to compromise when it comes to running your graphics intensive applications with integrated Intel Graphics.

Choose from a range of standard hard drives up to 1 TB² or optical drive options including the latest DVD-ROM or SuperMulti Writer Drive^{3,4}. Standard DDR3 memory is expandable to help you work efficiently.

Flexibility comes standard.

The HP Pro 3400 is ready to configure with extra memory slots, PCI Express (PCIe) slots, and 3.5"/5.25" bays. And, with preinstalled software like HP ProtectTools⁵ Suite SMB and Norton Antivirus⁶ (trial offer) you get a PC equipped to make an impact right out of the box.

Manage your workspace efficiently with available wireless networking for a neat, cable free existence.^{3,7} The HP Pro 3400 fits in your environment with no tabletop cable mess when you add our 802.11 Wi-Fi option.^{3,7} Plug one power cord into the wall and you're ready to go.

More than what is in the box.

You get more than what's in the box with our business-focused innovations included in every HP Pro 3400 that help you increase productivity, mitigate risk, reduce your environmental footprint, and improve your overall computing experience. Plus, the HP Pro 3400 offers service and support options, so you can spend your time focusing on what's most important—your business.

HP Pro 3400 Microtower Business PC

HP recommends Windows® 7 Professional.

HP Pro 3400 Microtower Business PC

HP recommends Windows® 7 Professional.

HP Pro 3400 Microtower Business PC

HP recommends Windows® 7 Professional.

*Not all features are in all editions of Windows 7. Systems may require upgraded and/or separately purchased hardware to take full advantage of Windows 7 functionality. See <http://www.microsoft.com/windows/windows-7/> for details

**Restrictions exist for this operating system. It is not available in some countries and is not compatible with some CPUs. Please check for availability.

1. 64-bit computing on Intel architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers and applications enabled for Intel® 64architecture. Processors will not operate (including 32-bit operation) without an Intel 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. See www.intel.com/info/em64t for more information. Dual Core is designed to improve performance of certain software products. Not all customers will necessarily benefit from the use of this technology. Intel's numbering is not a measurement of higher performance.
2. For hard drives, GB = 1 billion bytes; 1 TB = 1 trillion bytes. Actual formatted capacity is less. Up to 16 GB (for Windows 7) of disk space is reserved for the system recovery software.
3. Sold separately or as an optional feature. Availability varies by region.
4. Don't copy copyright-protected materials. Actual speeds may vary. Double Layer is a new technology. Double Layer media compatibility will widely vary with some home DVD players and DVD-ROM drives. Note that DVD-RAM cannot read or write to 2.6GB Single Sided/5.2 Double Sided-Version 1.0 Media.
5. HP ProtectTools requires Microsoft Windows.
6. 60 day trial period. Internet access required to receive updates. First update included. Subscription required for updates thereafter. This software is licensed to you by the manufacturer under the terms of its end user license agreement.
7. Wireless access point and Internet service sold separately.
8. Maximum memory capacities assume Windows 64-bit operating systems or Linux. With Windows 32-bit operating systems, memory above 3 GB may not all be available due to system resource requirements.
9. High definition content required.
10. Microsoft Office 2010 Preloaded includes reduced functionality versions of Word and Excel. Purchase of Product Key required to activate full Office 2010 suite available at participating resellers/retailers and <http://www.office.com>.
11. Service levels and response times for HP Care Packs may vary depending on geographic location. Restrictions and limitations apply. Service starts at date of hardware purchase. For details, visit www.hp.com/go/carepack.
