

HP Pro 3500 Microtower Business PC

Simply business

Meet your everyday business needs with a powerful, stylish PC that's budget-friendly.

HP recommends Windows® 7 Professional.

A tool for success

Versatile, dependable, modern – just like your business. Introducing the HP Pro 3500 Microtower Business PC, a powerful, work-ready design with the latest PC technologies and expandability features ideal for your everyday needs.

Meet demands head on

Support high speed memory and super fast processors for an impressive level of performance. Choose from 2nd or 3rd generation Intel® Core™ family processors¹ for the latest in proven PC performance.

Take client presentations and design projects to the next level with integrated Intel® HD Graphics. Add a discrete graphics card to the PCI Express x16 slot for fast, noticeable graphics performance. The HP Pro 3500 Microtower includes 3 PCI Express slots for additional expandability options when you need them.

Choose from a range of standard hard drives up to 2 TB² or optical drive options, including the latest DVD-ROM and SuperMulti DVD Writer³. Standard DDR3 memory is expandable up to 8 GB⁴ to help you work efficiently.

Connect here

Increase productivity with independent dual monitor support. Expect well-placed ports with quick and easy access for the devices and peripherals your employees use the most, including six USB 2.0 ports (two front-facing, four rear-facing), an RJ-45 Ethernet interface, audio line in/line out and microphone and headphone ports.

Essential security

Manage and control your fleet with HP Protect Tools⁵, a complete set of software and hardware based security features designed to protect your data. Permanently erase sensitive information with HP Disk Sanitizer and File Sanitizer⁶ and encrypt data on your hard drive with Drive Encryption. Easily store passwords to protected websites and applications, and automatically sign in with Password Manager⁷.

We've got you covered

With innovative engineering and thousands of hours of testing, you get a reliable and durable desktop built to go the distance.

The HP Pro 3500 Microtower comes with award-winning service and support, including a standard, 1-year limited warranty. Additional coverage is available through HP Care Pack⁸ Services.

HP Pro 3500 Microtower Business PC

HP Pro 3500 Microtower Business PC

HP recommends Windows® 7 Professional.

Please see the product QuickSpecs document for additional detailed specifications and information. See www.hp.com/go/businessdesktopPCs for more information about HP Business Desktop PCs.

*System may require upgraded and/or separately purchased hardware to take full advantage of Windows 7 functionality. Not all features are in all editions of Windows 7. See <http://www.microsoft.com/windows/windows-7/> for details.

** Includes reduced functionality versions of Word and Excel. Purchase of Product Key required to activate full Office 2010 suite available at participating resellers/retailers and www.office.com.

1. Multi-Core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. 64-bit computing on Intel® architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers, and applications enabled for Intel® 64 architecture. Processors will not operate (including 32-bit operation) without an Intel® 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. Intel's numbering is not a measurement of higher performance.
2. For hard drives, GB = 1 billion bytes. TB = 1 trillion bytes. Actual formatted capacity is less. Up to 16GB (for Windows 7) of system disk is reserved for system recovery software.
3. Duplication of copyrighted material is strictly prohibited. Actual speeds may vary. Double Layer media compatibility will widely vary with some home DVD players and DVD-ROM drives. Note that DVD-RAM cannot read or write to 2.6GB Single Sided/5.2 Double Sided-Version 1.0 Media.
4. Maximum memory capacities assume Windows 64-bit operating systems or Linux. With Windows 32-bit operating systems, memory above 3 GB may not all be available due to system resource requirements.
5. HP ProtectTools requires Microsoft Windows.
6. HP File Sanitizer and Disk Sanitizer are suitable for the use cases outlined in the DOD 5220.22-M Supplement. Does not support Solid State Drives (SSDs). Requires Disk Sanitizer, External Edition for Business Desktops from hp.com. Initial setup required. Web history deleted only in Internet Explorer and Firefox browsers and must be user enabled.
7. Requires initial setup, Microsoft Outlook and Microsoft Office. One year of service included. For users without HP ProtectTools, Digital Persona Privacy Manager is required for sharing encrypted files and emails, and six months of service is included.
8. Service levels and response times for HP Care Pack Services may vary depending on your geographic location. Service starts from date of hardware purchase. Restrictions and limitations apply. HP Care Pack Services extend service contracts beyond the standard warranties. To choose the right level of service for your HP product, use the HP Care Pack Services Lookup Tool at www.hp.com/go/lookuptool. Additional HP Care Pack Services information by product is available at www.hp.com/hps/carepack.
9. Options and accessories sold separately. Availability varies by country.
