# TouchSmart 9300 Elite Business PC

## A touch of ingenuity for your business

Integrate touch computing and video conferencing into your business and applications, or provide a powerful information source in high-traffic areas for your customers.

HP recommends Windows® 7 Professional.

### A touch of ingenuity

It's time to bring the power of touch to your business. Featuring the newest Intel® Core™ processors[1] and a 60° tilt and 180° swivel for advanced ergonomics, the third generation HP TouchSmart for business offers the latest in performance and user comfort.

Ideal for customer spaces, the HP TouchSmart 9300 Elite's advanced "reclining" feature—integrated into a sleek ergonomic design—adjusts for greater comfort when interacting with the surface of the multitouch display. Completely customizable and loaded with innovation, the HP TouchSmart 9300 Elite can help you integrate touch computing and video conferencing[2] into your business, or provide a powerful information source in high-traffic areas.

### Business PC with power

Because user comfort allows greater productivity, the HP TouchSmart 9300 can help you get more value from your investment in touch applications. The 23-inch diagonal white LED backlit widescreen PC makes the most of the Intel® H67 Express Chipset and your choice of 2nd generation Intel® Core™ i7, i5 or i3 processors[1] to deliver processing, graphics speed and performance.

### Introduce productivity and efficiency

Collaboration features such as an integrated 2MP adjustable webcam[3], dual array microphone and integrated stereo speakers, and HP Virtual Rooms[4] trial, an easy to use collaboration tool, help you introduce efficiency into your everyday business processes. Enhance productivity with a second monitor via DisplayPort. Choose an optional wireless LAN card[5], keyboard[5] and mouse[5] to keep workspaces and high-traffic customer areas clutter-free. The onboard HP TouchSmart Suite software delivers intuitive ways to interact with files, media and productivity applications.

This all-in-one business PC supports your environmental initiatives by helping to reduce energy usage. All ENERGY STAR® qualified models feature 90% efficient external power supplies, qualify for the EPEAT® Gold certification and include pre-installed HP Power Assistant[6].

### Useful, customized applications and support

HP collaborates with a network of independent software vendors versed in creating custom touch applications specific to the needs of business and enterprise. Innovating touch computing, HP helps you easily integrate touch applications into your environment.

Your HP TouchSmart 9300 Elite is supported with a business-class warranty for next-day, on-site support for one year[7]. Driver support is provided for Windows® Vista and XP, so you can easily incorporate the HP TouchSmart 9300 Elite into your existing environment.

For more information about the HP TouchSmart 9300 visit us at www.hp.com/go/desktop.

Other HP Care Pack Services available. To choose the right level of service for your HP product, use the HP Care Pack Services Lookup Tool at: http://www.hp.com/go/lookuptool. Additional HP Care Pack Services information by product is available at: http://www.hp.com/hps/carepack. |

* Not all features are in all editions of Windows 7. Systems may require upgraded and/or separately purchased hardware to take full advantage of Windows 7 functionality. See http://www.microsoft.com/windows/windows-7/ for details.

1. 64-bit computing on Intel architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers and applications enabled for Intel® 64architecture. Processors will not operate (including 32-bit operation) without an Intel 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. See www.intel.com/info/em64t for more information. Dual/Quad Core is designed to improve performance of certain software products. Not all customers will necessarily benefit from the use of this technology.
2. Internet access required; sold separately. Video conferencing software not included.
3. Internet access required.
4. A 60 day Virtual Rooms trial is included.  Requires purchase of license afterwards.  See www.hp.com/go/connectsolutions for details.
5. Sold separately or as an option.
6. HP Power Assistant may not be available in all regions. Use of this application is not required. Power calculations and cost calculations are estimates. Results will vary based on variables, which include information provided by the user, time PC is in different power states (on, standby, hibernate, off), time PC is on battery or AC, hardware configuration, variable electricity rates and utilities provider. HP advises customers to use information reported by HP Power Assistant for reference only and to validate impact in their environment. Environmental calculations were based on U.S. EPA eGrid 2007 data found at www.epa.gov/egrid/. Regional results will vary. Requires Microsoft Windows.
7. Service levels and response times for HP Care Packs may vary depending on your geographic location.  Restrictions and limitations apply. Service starts at date of hardware purchase. For details, visit www.hp.com/go/carepack.
8. HD content required to view HD images.
9. Maximum memory capacities assume Windows 64-bit operating systems or Linux. With Windows 32-bit operating systems, memory above 3 GB may not all be available due to system resource requirements.
10. For hard drive, GB = 1 billion bytes; TB = 1 trillion bytes. Actual formatted capacity is less. Up to 16GB (for Windows 7) of system disc is reserved for system recovery software.
11. Don't copy copyright-protected materials. Actual speeds may vary. Double Layer is a new technology. Double Layer media compatibility will widely vary with some home DVD players and DVD-ROM drives. Note that DVD-RAM cannot read or write to 2.6GB Single Sided/5.2 Double Sided-Version 1.0 Media.
12. Blu-Ray is a new format containing new technologies; certain disc, digital connection, compatibility and/or performance issues may arise, and do not constitute defects in the product. Flawless playback on all systems is not guaranteed. In order for some Blu-ray titles to play, they may require a DVI or HDMI digital connection and your display may require HDCP support. HD-DVD movies cannot be played on this Desktop PC. Don't copy copyright-protected materials.
13. Microsoft Office 2010 Preloaded includes reduced functionality versions of Word and Excel. Purchase of Product Key required to activate full Office 2010 suite available at participating resellers/retailers and http://www.office.com.
14. 60 day trial period for Norton Internet Security 2011 software. Internet access required to receive updates. First update included. Subscription required for updates thereafter. May be Norton or McAfee antivirus software. First 60 days included. Internet access required.
