HP U160 15.6-inch LED Backlit Monitor

Adding a second screen to your notebook just got radically simpler.

Increase your productivity with a notebook companion display that quickly opens into its own tilt-adjustable stand and easily connects with one USB cable (included). Share presentations across a table or desk wherever you work. The adjustable stand quickly converts back into a carrying case so you can stow and go.

Increase productivity

The super light and thin HP U160 companion display sets up and folds down in a snap, and connects to any notebook with a USB 2.0 port. Ample 15.6-inch diagonal screen size, 16:9 widescreen aspect ratio and 500:1 contrast ratio[1] aligns with most traditional notebook screens—without the weight and bulk of carrying a second notebook.

Designed for easy portability

The integrated "flip & fold" case deploys the monitor quickly, doubles as a stand, and helps protect the display while stored. Lightweight and thin, the modern design slides easily into your notebook carrying case right beside your notebook so you can take it with you wherever you work. The included USB cable stores easily into a built-in pocket on the case for quick accessibility.

Ideal for on-the-go presentations

Expand your screen real-estate so you can show and share presentations without crowding around a single notebook screen. Easy setup doesn't require a second power cord— get up and running quickly with the single USB cable and work at a desk in the office or in a hotel room, restaurant, lobby, or public meeting space.

Earn your environmental stripes

Help reduce your power consumption and energy costs with an intelligent, energy-efficient design built with the environment in mind. Mercury-free LED backlighting, a BFR/PVC-free design [2], and arsenic-free display[3] glass are just a few of the responsible details of the display.

Peace of mind, with HP

HP protection includes a three-year limited warranty. Get prompt service from a support technician with real-time chat and e-mail responses. Select HP Care Pack Services[4] to extend service contracts beyond the standard warranties.

Limited warranty	Protected by HP, including a 3 year standard limited warranty (the case/stand is excluded from this warranty).

1. All performance specifications represent the typical specifications provided by HP's component manufacturers; actual performance may vary either higher or lower.
2. Meeting the industry definition of 'BFR/PVC-free' per the iNEMI Position Statement on "Low Halogen" Electronics. Plastic parts incorporated into the chassis generally contain < 1000 ppm (0.1%) of bromine or chlorine. Printed circuit board and substrate laminates generally contain < 1500 ppm (0.15%) of total bromine and chlorine. Service parts after purchase may not be BFR/PVC-free. External accessories, including the case/stand, power supplies, power cords, and peripherals are not BFR/PVC-free.
3. Arsenic and its compounds were not detected using U.S. EPA test methods 3052/6010b by ICP-AES with a MDL 10 ppm.
4. Certain restrictions and exclusions apply. HP Care Pack Services extend service contracts beyond the standard warranties. Service levels and response times for HP Care Packs may vary depending on your geographic location. Service starts from date of hardware purchase. To choose the right level of service for your HP product, use the HP Care Pack Services Lookup Tool at www.hp.com/go/lookuptool. Additional HP Care Pack Services information by product is available at www.hp.com/hps/carepack.
