HP Compaq LA1905wg LCD Monitor

HP Compaq LA1905wg 19-inch Widescreen LCD Monitor

Comfort-focused,
energy-efficient,
and kind to the
environment

Achieve your business goals with the newly re-designed, energy-efficient HP Compaq LA1905wg 19-inch Widescreen LCD Monitor, which helps increase productivity and lower costs.

Smart design for the workplace

Sit back and find a monitor position that is comfortable for you with 35° tilt adjusting, pivot head rotation, swivel, and over 4.5 inches of height adjustability rising from the surface of the desk.

You may find close-to-the desk placement well suited to your comfort needs if you are shorter in stature or are looking through the bottom portion of your bifocals, trifocals or progressive lenses. Low placement is also perfect for children in educational settings. If you are taller in stature and want to maximize your neck and back comfort, simply add a riser under the stand.

In addition, a 3000:1 Dynamic Contrast Ratio, sharp resolutions to 1440 x 900, and fast 5 ms response time* all deliver stunning views of your work while VGA and HDCP compliant DVI inputs, DisplayPort, and integrated USB make advanced connectivity quick and easy.

Designed with the environment in mind

The HP Compaq LA1905wg is ENERGY STAR® qualified**, has received an EPEAT™ Gold rating, is TCO 5.0 Certified and has many other environmental features to help you make smarter purchases, including:

- A packaging alternative that uses materials with a lower environmental impact than EPS cushions
- Minimized power consumption through use of low power panel
- 50% reduction in mercury over previous generation models
- BFR and PVC free panel, cabinet and structural sheet metal
- Arsenic-free panel
