

iWL Series

Bring real mobility to payment

- Optimize revenue opportunities with 24/7 connectivity
- Reinvent mobile payment user experience with a pocket-sized device, long battery life and fast printer
- Bring mobility payment to your point of sale
- Open-up a wide range of solutions for various environments (small merchants, hospitality and mobile businesses)

iWL Series

• Highest Security

The iWL Series meets the highest security requirements and is PCI-PTS 2.x and 3.x certified with SRED & open protocol modules.

• All Payment Options

Offering EMV Chip & PIN, MagStripe and Contactless, the iWL Series also enables new NFC couponing and wallet use cases.

• Pocket Sized

Designed for mobility use cases, the iWL Series is a pocket-sized device. It's the world's smallest and lightest terminal.

• Designed for Mobility

Extended battery life, pocket-size form factor, light weight design, perfect display readability, wide backlit keypad and robust casing make the iWL Series ideal for all mobility uses cases.

• Long Battery Life

Natively designed for mobility, Ingenico has paid specific attention to delivering an outstanding battery life. Depending on the use cases, the iWL Series can deliver up to several days of use.

• All Wireless Connectivity

Featuring a unique portfolio of simple and multiple wireless connectivity options – GPRS, 3G, Bluetooth Class 1 & WiFi – the iWL Series enhanced network quality of service, eg 3G/GPRS used as a back-up of BT. Beyond, Multicom enables a smooth integration of the iWL Series in multi-devices solutions, e.g being connected in BT to an ECR, taximeter or tablet while keeping its own connection to the banking host.

• Outstanding Printer

With its 30 lines per second, the iWL Series printer is the fastest on the market. Reducing printing time improves on-the-spot efficiency.

• Telium 2 Advanced

Powered by Ingenico, Telium 2 technology is the result of 30 years' experience in the payment industry. Secure, highly integrated and fast, Telium 2 is the world best platform to provide payment services and a library of over 2000 applications. Telium 2 is a fully scalable, reliable operating system embedded into the 20 million terminals deployed worldwide.

About us

- Legacy Technology Services is a leading nationwide provider of mobile computing, barcode, printers and point of sale equipment and services.
- For over a decade, thousands of clients across North America have trusted us to provide equipment from leading manufacturers backed by the services to support them.

Latest Hardware from top manufacturers

- Legacy handles virtually every major manufacturer of mobile computing, barcoding and point of sale equipment.

Expert Repair and Maintenance services

- Legacy is one of the best repair facilities in North America

Discontinued product sourcing

- They don't make it anymore? Our inventory also includes manufacturer close-outs and discontinued equipment to support our clients legacy infrastructure.

Trade-in and Disposal services

- That old equipment laying around your facility may still have some value. Legacy routinely purchases equipment from our clients around the globe.
 - Data destruction
 - Hardware disposal
 - Auditing services

Dedicated client account team

- Dedicated, highly trained account managers are here to answer all your questions and provide top notch service.

Equipment rental services

- Sometimes renting is a better solution, Legacy's huge rental inventory provides the equipment you need for temporary needs and projects.
