Mobile Performance Tablet

EM-104

The new Partner Tech EM-104 has one purpose : to increase profitability.

The EM-104 Mobile Performance Tablet accomplishes this in several ways: reducing errors, improving customer satisfaction, improving productivity, and increasing sales. Users will be able to be more productive both in-store and out in the field with the EM-104's 10.4" LED touch panel, which is sunlight readable. Having a wireless EM-104 gives users the freedom to work where they want.

Portable. Powerful. Versatile.
The EM-104 stays true to Partner Tech tradition with a host of add on peripherals, including a MSR reader, fingerprint reader, GPS module, VESA mounts, a table top stand, and much more. Partner Tech is proud to present the new EM-104 for 2011, the ultimate Mobile Performance Tablet.
