

BENEFITS AT A GLANCE

- Lets merchants extend the POS and process transactions anywhere, any time
- Opens new markets for you — from delivery services to outside vendors
- Ease of use and familiar software speed implementation and reduce costs
- PCI PED approved and offers end-to-end security using SSL and other protections

Bring the Point of Sale to the Point of Service

VeriFone's Vx 610 commands unsurpassed performance — no strings attached. Without tying your customers to a fixed location, our wireless powerhouse delivers blazing performance, high-end functionality and exceptional ease of use.

With our wireless, battery-powered Vx 610, the point of payment can be almost anywhere — merchants can instantly open an extra lane or support an outdoor market. Powered by a 32-bit processor, the all-in-one device eliminates the need for dongles and charging bases. Swiftly handling even the

most complex mag-stripe or smart card transactions, the Vx 610 uses a choice of the latest wireless technologies, such as GPRS and CDMA. And the modular design provides true investment protection, allowing modules to be easily swapped should new versions of a technology emerge.

The Vx 610's intuitive, ATM-style interface provides a familiar experience for users. And VeriFone's Verix-based platform with SoftPay software allows you to leverage existing applications without rewriting code or

recertifying — simplifying the implementation process and minimizing your help desk costs.

Finally, the PCI PED approved Vx 610 meets the latest security standards for PIN entry. And the VeriFone name on the outside says all you need to know about the quality and reliability inside.

Features & Benefits

Countertop Payment with Wireless Flexibility

- Extends countertop payment to wherever consumers are, opening new market opportunities for you
- Offers a choice of the latest wireless technologies, such as GPRS and CDMA for flexible communications

Familiar, Consistent Platform

- Proven, VeriX-based platform provides seamless fit with merchant's existing VeriFone countertop devices
- Supports payment and value-added applications — application separation at both the hardware and software level minimizes or eliminates the need to recertify existing payment applications every time an application is added or modified
- Designed for optimal performance with IP-based transactions
- Dual modem design — wireless, plus dial for back-up operation — offers added dependability

Exceptional Performance and Ease of Use

- Powerful 32-bit processing, multi-tasking and "always-on" wireless services trim transaction times to just a few seconds, even on the most complex transactions such as SSL and TLS
- File compression and high-speed IP wireless networks greatly streamline application downloads
- Industry-leading battery performance with large-capacity lithium-ion Smart Battery technology
- Intuitive, ATM-style interface, backlit display, large keys, and bold menu prompts reduce clerk errors and minimize help desk calls
- All-in-one design includes high-speed thermal printer, drop-in "clam shell" paper loading
- Standard countertop-sized paper roll minimizes inventory costs and time spent reloading paper
- Vertical, triple-track, high-coercivity card reader handles most magnetic-stripe cards

Advanced Security and Superior Reliability

- Latest security protections include advanced 3DES encryption, MasterCard PTS, Master Key/Session Key and Derived Unique Key Per Transaction (DUKPT) key management
- VeriFone's VeriShield Retain file authentication software provides tamper resistance plus unsurpassed security and protection against unauthorized access to payment devices, while also securely accommodating trusted third parties
- PCI PED approved for debit and other PIN-based transactions

SPECIFICATIONS

Processor

32-bit microprocessor

Memory

6 MB (4 MB of Flash, 2 MB of SRAM)

Display

128 x 64 pixel graphical LCD with backlighting; supports 8 lines x 21 characters

Magnetic Card Reader

Triple track (tracks 1, 2, 3), high coercivity, bi-directional

Keypad

3 x 4 numeric keypad, plus 8 soft-function keys and 4 screen-addressable keys

Peripheral Ports

One RS-232 port and 1 telco port support peripherals including check readers

Printer

Integrated thermal with graphics capabilities, 24 or 32 columns; standard countertop paper roll 58 mm (2.25 in.) x 25M, single ply

Modem

Standard 14.4kbps modem (Bell 103/212a, CCITT V.21/V.22/V.22bis, 300/1200/2400/14.4k bps, synchronous and asynchronous)

Wireless Modem

Supports Wide Area Wireless GSM/GPRS on 900/1800 MHz or 850/1900 MHz; CDMA2000 1X on 800/1900

Protocols

Application selects between asynchronous protocols (Visa 1, Visa 2, etc) and synchronous protocols (including ISO 8583/SDLC); IP enabled with optional TCP/IP protocol stack

Security

PCI PED approved; 3DES encryption, Master/Session and DUKPT key management; MasterCard PTS approved, VeriShield file authentication; SSL API for secured IP transactions

Physical

Length: 209mm (8in.)
Width: 102 mm (4in.)
Height: 70mm (2.8in.)
Weight: Device/708g (1.5lbs)

Environmental

0° to 40° C (32° to 104° F) operating temperature; 5% to 90% relative humidity, non-condensing

Voltage

AC input 100 - 240 VAC, 50/60 Hz;
DC Output 8.6 - 9.4 VDC, 4.0 Amp

About us

- Legacy Technology Services is a leading nationwide provider of mobile computing, barcode, printers and point of sale equipment and services.
- For over a decade, thousands of clients across North America have trusted us to provide equipment from leading manufacturers backed by the services to support them.

Latest Hardware from top manufacturers

- Legacy handles virtually every major manufacturer of mobile computing, barcoding and point of sale equipment.

Expert Repair and Maintenance services

- Legacy is one of the best repair facilities in North America

Discontinued product sourcing

- They don't make it anymore? Our inventory also includes manufacturer close-outs and discontinued equipment to support our clients legacy infrastructure.

Trade-in and Disposal services

- That old equipment laying around your facility may still have some value. Legacy routinely purchases equipment from our clients around the globe.
 - Data destruction
 - Hardware disposal
 - Auditing services

Dedicated client account team

- Dedicated, highly trained account managers are here to answer all your questions and provide top notch service.

Equipment rental services

- Sometimes renting is a better solution, Legacy's huge rental inventory provides the equipment you need for temporary needs and projects.
