

***Xi*[™] Series**

High Performance Bar Code Printers

Higher Levels of Labeling

The newest family of five, *XiIIIPlus*[™] printers are superior performing *Xi*s! There's a labeling solution to fulfill any need—from 600dpi resolution for small label printing to an 8.5-inch print width for wide labels and forms. Exciting, new features include a 32-bit processor; increased memory for label formats, graphics, fonts and ZBI programs; and an early warning notification for printhead maintenance support. *XiIIIPlus* printers also offer more connectivity choices than their competitors, including ZebraLink, ZebraNet Wireless Card Socket; and USB 2.0, serial and parallel ports. iSeries (AS/400) network users choose from a wide range of Twinax/Coax and IPDS connectivity options. Add up all the bells and whistles, and it's easy to see why *XiIIIPlus* printers take high performance to an all-new level!

Everything you count on with Zebra's *Xi* Series printers, plus more!

Zebra's *Xi* Series is known for its high performance, mission-critical ruggedness. These hardworking printers are the ones to call on—24/7—in heavy duty, industrial operations.

XiIIIPlus printers from Zebra offer revolutionary features including:

- New 32-bit processor for faster throughput and processing speeds
- Increased 16MB SDRAM memory (over 12MB user available) for printing longer label formats
- 4MB non-volatile Flash memory (2MB user available)
- Early service warning notification for printhead maintenance support
- 300 unique darkness settings—great for printing on synthetic materials

Connect with it. Count on it.[™]

Xi Series™

Meet The *XiIIIPlus*™ Family!

XiIIIPlus printers offer superior connectivity solutions including:

▶ ZebraNet® Wireless Card Socket, which eliminates the costs of recabling when a printer is moved or reconfigured.

▶ ZebraLink™, a revolutionary real-time connectivity and control solution for Zebra printers, which includes:

1. Alert (with ZebraNet® PrintServer II)—enables a Zebra printer to send unsolicited status messages via email-enabled devices (e.g. pagers, cell phones, PCs and PDAs).
2. WebView (with ZebraNet PrintServer II)—enables the remote monitoring and configuration of Zebra printers using Web-based network tools.
3. ZBI™ (Zebra BASIC Interpreter)—programming language that works with ZPL II® to control and interpret incoming text and data.

ZebraLink gives you the freedom to create stand-alone applications using an *XiIIIPlus* and peripheral devices without needing a PC host. ZBI can then transmit data captured by these devices over your LAN, WAN, or wireless network via e-mail or TCP/IP messaging.

Test drive an *XiIIIPlus* with ZebraLink today at www.zebra.com/livelink!

90*XiIIIPlus*™

The 90*XiIIIPlus* printer is ideal for applications that require small, high-resolution bar code labels, such as tracking printed circuit boards and small parts, and identifying small products. The printer's standard 300dpi printhead ensures text, graphics and bar codes always print clearly—essential when label space is limited.

Xi Series™

140XiIIIPlus™

The 140XiIIIPlus gets the job done fast, printing at up to 12 inches per second (ips). With such powerful performance and steel construction, it is the ideal choice for high-volume, mission-critical applications with 24-hour duty cycles. The 140XiIIIPlus is also well suited for applications in which labels are required quickly, either on demand or in batches.
