

Zebra® TTP 7000™ Series

The TTP 7030 is a fast, reliable and versatile kiosk printer specially designed for unattended operation. It's built to work in harsh environments such as heat, cold, and vibration. And with the jam-preventing loop presenter, guillotine cutter, and pull detector, the TTP 7030 provides trouble-free operation. The only maintenance required is to replace the media roll. The TTP 7030 can support 3.15"/80 mm to 4.4"/112 mm media width, plus a wide printing format that provides room for extensive information or graphics, allowing Web or A4 pages to be downscaled into pocket format. When connected via USB interface, the printer is plug-and-play compatible with Windows, or the printer can be addressed directly from the kiosk software in text mode. The TTP 7030 has Flash memory to store large downloaded files like fonts and graphics.

Zebra Kiosk Receipt Printer Advantages

Unremitting Reliability to Keep Kiosks Printing

Optimized for tough printing environments where durability, reliability and minimal maintenance and ease of use are critical, Zebra printers maximize uptime and minimize upkeep.

Easy to Integrate in Kiosk Designs

A small footprint and flexible mounting options make Zebra printers ideal for a variety of applications—whether embedded in a custom kiosk solution or Zebra's Kiosk Print Station.

End Benefits

As part of a self-service kiosk solution, Zebra printers help companies improve service, raise customer satisfaction, increase revenue, and lower operational costs.
