

Zebra® GC420™ Desktop Printer

SEE MORE.
DO MORE.

Affordability Meets High-Quality

Zebra's feature-rich, competitively priced GC420 desktop printer brings Zebra quality, durability and reliable performance to many low- to medium-volume, direct thermal and thermal transfer printing applications. With the same mechanical design as the legacy TLP/LP 2844 series, it allows customers to easily migrate to the new GC420.

Compact Design Filled with Powerful Features

The GC420 printer's compact, space-saving design contains a powerful 32-bit processor for fast label throughput, and a large memory for more graphics storage, longer (991 mm) label formats, and faster processing. The GC420 supports a 104 mm media width for standard desktop applications. It also includes both EPL™ and powerful ZPL® programming languages — making it easy to integrate with other Zebra printers — while its three interfaces and 10/100 Ethernet option offers flexibility in connecting with your local or networked system. Peeler/dispenser and cutter options extend the GC420 printer's versatility to meet an even greater variety of applications.

Zebra's GC420 supports many applications, including:

- **Government** — Asset management, documents management, evidence tracking
- **Healthcare** — Laboratory specimen and blood bank labeling
- **Retail** — Price labeling and receipt printing
- **Manufacturing** — Light-industrial work-in-process, product and shipping labeling
- **Transportation & logistics** — Boarding tickets, bag tags, parking passes
